

REVENGE FOR THE MURDER OF TILLEY

Insurgents Punished For Their Deed.

AMERICAN FLAG FLOATS OVER COAST OF NEGROS.

Major General Otis Shows How the Conditions of War Really Developed At Manila—Four Thousand Volunteers Signify a Willingness to Remain in the Philippines—Believe That the Islands Offer Rare Opportunities For Industrious and Enterprising Americans—Aguinaldo Says He Is Not Dead.

Washington, June 1.—[Special]—The following was received from Gen. Otis this morning: "Smith reports from Negros that he has punished the insurgents who murdered Capt. Tilley; that the eastern coast of the island is under the American flag and its inhabitants ask protection against robber bands. The bands were pursued into the mountains by the United States and native troops and severely punished."

MAJ.-GEN. OTIS MAKES A REPORT.

He Shows How the Condition of War Really Developed at Manila.

Washington, June 1.—The secretary of war Wednesday made public the report of Gen. Otis dated from Manila, transmitting the reports of his subordinate officers on the operations around Manila up to April 6. Gen. Otis begins with this statement: "These military operations are fairly well presented in the reports, and I have little to add thereto, but desire particularly to call attention to the rise and development of conditions and circumstances which resulted finally in war. This I deem to be essential in order to correct the somewhat prevailing impression that the government of the United States is responsible through deceit or wrongful action for the present existing hostilities."

To this end he gives a short summary of the Philippine insurrection against Spain, laying stress on the fact that a small band of the natives of Luzon, leaders of the rebellion in 1896 against Spain, were induced or a monetary consideration to leave the island. These men returned to the vicinity of Manila after the destruction of the Spanish fleet there, being, as Gen. Otis says, "encouraged without authority to attempt the organization of what they were pleased to denominate an independent government for the Filipino people."

Gen. Otis then gives an account of his efforts to convince the Filipinos of the friendly purposes of the United States. He shows how persistently he labored to prevent hostilities, and how the first outbreak was precipitated by the insurgents.

TO REMAIN IN THE PHILIPPINES.

Four Thousand Volunteers Do Not Wish to Come Home.

New York, June 1.—A special to the Herald from Manila says:

"Information has been received here that satisfactory results have attended the movement among members of the volunteer regiments in Manila for the establishment of a large American colony in the Philippines."

"Four thousand of the volunteers now in the islands are reported to have signed a petition to the president and secretary of war praying that they receive their discharges in Manila, instead of at the places of enlistment, and that they be allowed travel pay to the place of enlistment. It was explained that they believed the Philippine islands offered rare opportunities for industrious and enterprising Americans to make for themselves homes, and that they desired to remain for the purpose of taking part in the development of the mining, agricultural and industrial resources of the islands."

"The petition stated that in the event of favorable action by the government these signing it pledged their united support in upholding the laws and protecting the interests of the United States there, and would, if so desired, become members of a national guard or such other organization as might be necessary for the best protection of American interests in the Philippines."

Rebels Capture a Sailing Party.

Manila, June 1.—Two petty officers of the United States hospital ship Relief went sailing in the harbor yesterday. Their boat was afterward found in the possession of the natives near the Paranaque lines by the monitor Monadnock. The men are supposed to have been killed or captured.

Send Secret Memorial to Europe.

London, June 1.—A dispatch from Rome says that the "Filipino committee in Europe" has forwarded to all of the European governments and to Japan a special secret memorial, under date of May 29, protesting against the excesses of the American army in the Philippines, and inclosing sworn declarations of alleged barbarities com-

mitted by the Americans. The memorial "to protect weak nations against the tyranny of a mighty nation" requests the governments addressed to forward protests to the United States against the American excesses, with the object of "compelling the Americans to submit to the rules of civilized warfare."

Was He Sympathetic?

The marriage in Washington on the 18th inst. of Mrs. Marion Treat McKay and Mr. Albert Von Breuninger develops an unusual incident. The most valuable wedding gift was from the ex-husband of the bride, Gordon McKay, and came in the shape of \$100,000 worth of securities. It is exceedingly doubtful in what way Mr. McKay means this action shall be taken. He may, from past experience, nourish a sad sympathy for the groom, and intend that the gift shall go eventually to him. Or he may simply desire to show that he holds no malice to his divorced wife, and will gladly see her happy even if he himself is not the man charged with the procurement of that rare article. Mr. Von Breuninger, it is understood, has relinquished all claim to his wife's alimony of \$25,000 per year, and it may be that the grateful Mr. McKay thus evinces his appreciation of such a generous and manly action. Whatever be the true inwardness of the situation, or the motive moving this most unusual ex-husband, he is to be commended on setting those in like predicament a worthy example. The institution of divorce is bad enough, but it appears to have its advantages after all.

Curzon's Narrow Escape.

George Curzon, the new viceroy of India, whose handwriting became quite illegible at one period of his Oxford career, wrote two letters, one to a relative, one to a chum with whom he always discussed the faults of their respective relation, and accidentally put these letters into the wrong envelopes. He received a reply from his chum which revealed the mistake, and was about to write a profound apology to his relative, when he received the following note: "Can't read a word of your four pages, but guess you want some money, you young rascal." Inclosed was a handsome "tip."

Ideal Country for Tipplers.

Belgium is free handed in the use of the flowing bowl. Taverns and cafes abound everywhere in the little kingdom. Towns vie with each other for the distinction of having, proportionately to their population, the greatest number of drinking places. Until recently the palm was awarded to Ghislenheim, which has a tavern for each thirteen inhabitants. Bancelles now claims the record, with a showing of one cafe for every four male adults. Bancelles has a population of sixty-four men, fifty-five women and seventy-two children under 16 years old. Its collection of dramshops totals seventeen.

Victoria Liked a Popular Song.

From the San Francisco Argonaut: While a regimental band was playing after the queen's luncheon, at Osborne, recently, a sprightly music hall air, unfamiliar to her majesty, struck her fancy. She immediately dispatched an aide de camp to find out the name of the piece of music. On his return the officer seemed very much embarrassed, and hesitated, until the queen insisted on his telling her what was the piece of music that she had admired. With much difficulty the officer faltered out that its title was "Come Where the Booze Is Cheaper." After inquiring the meaning of the substantive, the queen is said thoroughly to have enjoyed the joke.

According to the latest census, Amsterdam, the capital of Holland, has 516,000 inhabitants, of whom nearly 32,000 are Catholics—not quite a fifth.

COMMISSION REPORT PORTO RICO AFFAIRS

HAVE BEEN INVESTIGATING OUR NEW TERRITORY.

Island Has Many Wealthy Inhabitants, But Country Districts Are Crowded With Poor People—Recommend New System of Government Modeled After American Plan.

Washington, June 1.—[Special]—The report of the commission appointed to investigate affairs in Porto Rico were made public today.

The report says the island has many wealthy inhabitants, but that the country districts are crowded with poor people. The reports of starvation, however, are denied.

Ninety per cent. of the people are illiterate. The people are industrious and loyal to their country.

A great many are living in concubinage there, because the expenses of marriage ceremonies as demanded under the old Spanish system is too great.

The commission recommends a new system of government modeled after the American plan.

FORECAST OF WEATHER

Chicago, June 1.—[Special]—Forecast for Wisconsin:

Partly cloudy tonight and Friday. Probable showers.

FOR A REVOLUTIONARY FUND.

Money Being Collected in Cuba in a Suspicious Manner.

Havana, June 1.—The military administration has been informed that a conspicuous leader of the late military assembly recently collected 300 centenes from a wealthy Spanish merchant in this city, representing it was a contribution to a revolutionary fund.

The merchant gave the money on the assurance that it would secure him a favorable status with the possible future government. Then, in order to secure favor with the Americans, he revealed to them what he knew.

The extent, design, and cause of the proposed rebellion are only known to the Americans through this informant, and whether there is any further foundation for the suggestion cannot be ascertained from the merchant, as he was told that nothing would be attempted for several months.

Trans-Mississippi Congress.

Wichita, Kan., June 1.—All indications point to a successful session of the trans-Mississippi congress. Delegates from most of the states are present, prepared to press the subject of greatest interest to their respective localities. Territorial expansion and an American merchant marine are the subjects of general agitation and little else is heard in the lobbies. There is visible a strong undercurrent supporting the administration's conduct of the Spanish and Filipino wars. There is also much discussion of the trusts and their effect on commercial affairs.

Shoots Father and Mother.

Mayville, Mich., June 1.—George Stalker Jr., a young man living near here, while angry at his father, Wednesday shot him in the top of the head and neck. He next shot his mother in the back, and then shot himself through the head. The father and mother, it is thought, will live, but the son will probably die.

The doctors say he is suffering from acute malarial grip. His condition is thought to be really serious.

SUDDEN DISAPPEARANCE OF FRANK MILSKI.

Involved in Financial Difficulties—Had Been Highly Respected—Evidence in Amherst Bank Robbery All In—Oshkosh Soldiers Object to Sermon—State News.

Manitowoc, Wis., June 1.—It became known last evening that Frank Miski had left the city under peculiar circumstances. Last Monday he bade his wife good bye saying he was going into the country. She was shocked yesterday on receipt of a letter from him dated Chicago, saying he had left Manitowoc for good. It was the first intimation she had that anything was wrong. Upon inquiry it was learned that he was in financial difficulties with the Bahr guards, of which he was treasurer, and also with the St. Boniface Benevolent society. Miski met some of his wife's relatives in Chicago and told them of his difficulties, asking them to instruct his wife to sell his barber shop and settle his debts as best she could and join her relatives in Chicago. Miski went south from Chicago and his present whereabouts are unknown. He has always been highly respected and much thought of by all his associates, and his sudden departure has caused much surprise.

Evans Given Two Years.

Racine, Wis., June 1.—James Evans, captured at the muzzle of a revolver some weeks ago by the agents of the C. & N. W. R. R., while in the act of robbing the offices, and who was being held on charge of robbing the grocery store of W. H. Williams, escaped from the county jail this morning, while Turney Derricks was examining a bath tub, his attention having been called to it by another prisoner. Sheriff Rein heard of the escape a short time afterwards and caught the man in a cellar half a block from the jail where he was hiding. This afternoon Evans signified his willingness to plead guilty. He was taken before Judge Flett of the municipal court, and was sentenced to Waupun for a term of two years.

Evidence Is All In.

Stevens, Point, Wis., June 1.—All the testimony in the Amherst bank robbery case has been taken, and the attorneys have begun their arguments. The principal effort of the defense lay in an endeavor to show that the accused were in possession of large sums of money just previous to the robbery, and that on the night of the robbery at least two of the men, Harry and Kelly, were in a restaurant at Junction City, twenty-seven miles from Amherst. Several witnesses testified to having seen them and to having played cards with them. Leo Wiesner, the man accused of driving the prisoners from Amherst Junction to Radolph after the robbery, swore that he had never seen them until after they were arrested.

Soldiers Object to Sermon.

Oshkosh, Wis., June 1.—At a union meeting of the churches Sunday evening the Rev. G. D. Lindsay of the Plymouth church, attacked the "caneen," and declared that it was carried on during the late war simply for profit by the officers, and that it was greatly productive of drunkenness. The veterans of the Spanish-American war last evening passed resolutions denouncing the statement, and demanding that Mr. Lindsay prove them or retract.

Paris, June 1.—[Special]—Major Marchand, France's new idol, arrived here this morning. A great concourse of people met him at the depot and gave him a remarkable welcome.

A tremendous shout of "Vive Marchand," went up as the explorer was sighted.

Delirious enthusiasm marked every step of Marchand's progress through the streets.

Marchand was driven in an open carriage which was frequently blocked by the crowd which pressed about cheering and waving flags.

There was no attempt at a practical demonstration.

SIX PEOPLE DROWN AT TOLEDO.

Three Men and Three Women Perish Before Aid Reaches Them.

Toledo, Ohio, June 1.—Late last night six persons were drowned in the Maumee river abreast one of the most frequented docks in the city, while hundreds of people listened to their cries for help. Shortly after the pleasure steamer Pastime passed down the sailors on board the State of New York heard cries for help coming from the river. Nothing could be seen owing to the darkness, but in an instant the steamer's searchlight was brought into play, and it showed six persons—three men and three women—struggling in the water, but there was no trace of a boat. In a few minutes one of the steamer's lifeboats started to the rescue, but when it had covered half the distance the searchlight showed that all the struggling people had disappeared.

The identity of the victims is unknown. The police are dragging the river for the bodies. It is supposed the victims were in a rowboat and were run down by the steamer Pastime or that their frail craft was swamped in the swells from the passing steamer.

THINK OUTLANDERS MAY WIN.

Kruger Seems More Liberal Than His Fellow Countrymen.

London, June 1.—Although there is practically no direct news from the Transvaal, yesterday's meeting at Bloemfontein is eagerly discussed, for it is recognized that either it will lead to a lasting pacific understanding or will emphasize existing differences.

It is becoming better and better recognized that President Kruger is more liberal than the agricultural Boers forming the majority in the volksraad, and it is believed that he is willing to grant the franchise after five years' residence, in which, though not going as far as his rival, Joubert, who is willing to grant the franchise to any one who desires it, he yet goes further than the bulk of the Boers.

A Gallant Small Boy.

A heroic rescue was performed lately in San Francisco by a boy only eight years old. The San Bruno Hotel had taken fire, and the flames were not discovered until it was too late to save the building, or, as it afterward turned out, to get out of it all its inmates. While the fire was raging little Theodore Steiner, eight years old, the son of the proprietor of the hotel, learned that a baby, a year old, the child of one of the guests, had been left in an upper room. Theodore did not wait to apprise some older person of this fact; he acted instantly on his own responsibility. Rushing up the stairs in the midst of fire and smoke, he disappeared from the view of the bystanders. At that very moment the walls began to totter. Those who had seen the boy enter gave him up for lost. He was, indeed, gone a surprisingly long time, but finally, at the very last moment when it would have been possible for any one to come out of the building alive, he emerged, bearing the baby in his arms. He had rescued it from what in a moment more would have been death.

WM. OWEN IN THE THREE GUARDSMEN

YOUNG ROMANTIC ACTOR AT
MYERS GRAND.

Popular Entertainer to Play Return Engagement in the Bower City Tomorrow Evening—Al. W. Martin's Mammoth Company Presents Uncle Tom's Cabin Tonight.

"The Three Guardsmen." What recollections does the name recall. What visions of the night when we sat up all night to finish the book, because its fascinations would not let us sleep till we had found out the fate of every character in the book. Brave D'Artagnan, Athos, Porthos and Aramis, the sad queen, the crafty cardinal, the wicked lady. What movement, what color. Dumas' "The Three Guardsmen" is the greatest of all romances. The book is or has been read by all that have an ounce of romance or imagination or a particle of sentiment. The boy or girl, the middle aged man or woman, the grandfather and grandmother. The characters furnish matter for household discussion and the boy argues with his father as to the merits of the heroes. One strong thing about "The Three Guardsmen" is that no one speaks of the characters as fiction but as living beings that we either like or dislike, the events as really happening. The sense of the reality is so strong that we feel that we have had personal acquaintance with each and every one of them. They think thoughts we have thought and do deeds we would like to perform. The whole thing is not like a picture of life but life itself.

The play is being revived in London and is running at present in two houses in New York. Mr. Owen's production is perfect in every detail. The scenery is complete and most elaborate and the dresses are dreams of beauty.

Mr. Owen and his able company of entertainers will present this worthy attraction at Myers Grand tomorrow evening.

"Uncle Tom's Cabin."

Just why people will continue to flock to see "Uncle Tom's Cabin" is as Lord Dundravy would say: "One of those things that no fellow could find out." But they will go and see it just as they have been doing for thirty odd years. No play has been more abused than this one. It has been done in dime museums at the rate of ten times a day, and in one night stands in an hour and a half, by five or six people. On the other hand, it has been given as a legitimate production. Being public property, any one who thought they could make a few dollars out of it, has "produced the play," and this city, as well as the country at large, has suffered from the inflictions.

But it was not until Al. W. Martin brought this production out that the admirers of the play had the pleasure of seeing it put on the stage in a manner that they could appreciate. The company is said to contain some well known people, among whom we might mention Milt. G. Barlow, the famous minstrel star, who will appear as "Uncle Tom."

Taking the piece as it was originally, Mr. Martin gives it a dressing of complete and realistic scenery, put the principal roles into competent hands, engaged a number of negroes to add to the pictures and sing and dance in the levee scenes—in fact, did all in his power to make the performance acceptable to the public. The production will be seen at Myers Grand this evening.

EVANSVILLE AWAKES AT LAST

Communication Relative to Rock County High School Athletics.

Evansville, Wis., June 1—Editor Gazette:—Not long ago there appeared an article in your columns on the athletic relations between Evansville and Janesville High schools.

It is hoped that you will permit us to make a brief reply. Many of the statements were manifestly unfair; and it seemed to be the purpose of the writer to show that the Rock county meet could not be held this year because Evansville would not conform to the rules of the association.

We did not care to reply at that time, because some of our contestants were protested, and we feared that a newspaper controversy might prejudice our cause; but since then the protest has been heard and decided against us. We are now prepared to state publicly that we were ready to compete under the rules. We are still willing to meet Janesville on the same terms. We won the cup last year and we intend to keep it until some other school wins it.

Our athletic team qualified at Madison, and we ask no concessions, we claim the championship of Rock county and are prepared to meet any or all school at any time not later than June 10, '99.

Our team defeated the winning team of Walworth county and scored more points at Madison last week than Janesville has scored in the history of the association.

On the strength of the above record we shall claim the cup for a second year unless Janesville or some other school still desires to compete for it. Yours Truly,

CARL GRAY, Capt.,
E. H. S., Track Team.

BELOIT FILLED WITH CROOKS

There For a Harvest of Coin From the Unsuspecting.

If the 1,600 Bower City people who are participating in the Woodman picnic at Beloit today return without any being victims of smooth confidence sharks or the sly pick-pocket, it will indeed be a lucky delegation.

The Beloit News of last evening has the following to say of these unscrupulous pests which have infested that city:

"Beloit is filled with crooks. The smoothest men in the world—pick pocket and confidence gentry—are here to take in the unwary. Some are well dressed and others are farmers in appearance, but they all have an eye single to the chance of getting an honest man's dollar dishonestly.

Marshall Appleby has optics on the criminals and it is likely some of them will be rounded up and jailed.

There are two gangs in town and both from Chicago. One crowd has its headquarters in a saloon, corner of Green and Madison streets, and they go to country towns when big crowds gather. They went to De Kalb when Gov. Tanner was there but the police locked them up until the day's doings were over. They have with them today a boy fourteen years old who picked women's pockets at Rockford last year.

The other gang works confidence games. They can extract a man's money so easily that the victim wonders how it was done.

Lock up your houses tonight. Don't carry money in your pockets. Don't bite at any other man's game unless you can afford to lose the money you bet.

THE BASEBALL REPORT.

Brooklyn won again over Louisville, and seems to be making a runaway race of it. Cincinnati scored a win at New York and Pittsburgh trounced the Senators. These two games combined to place Pittsburgh ahead of the Giants. The games:

FESTIVAL CONCERT A GREAT SUCCESS

BY BOYS' AND GIRLS' CHOIRS
LAST EVENING.

Congregational Church Filled to Its Utmost Capacity By Janesville Music Lovers to Listen to the Sweet Voices of the Children—Over One Thousand There.

The Congregational church was filled to its full capacity last evening by an audience composed of the music lovers of the Bower City, who assembled there for the purpose of listening to the children's choir, which has furnished sweet music at that sacred place of worship for several months past.

The affair was a genuine musical treat, notwithstanding that most of the entertainers were children, which adds much to the credit of the director, Mrs. W. S. Jeffris, to whom is due the grand success of last evening's entertainment.

The program was varied and the selections were well chosen. The choruses by the children were well rendered and afforded an opportunity for much expression. The chorus, "May Song" was encored and the children responded with "Swanee River." The "Boat Song," a two part song, was one of the most difficult numbers. The kindergarten songs by the little tots fairly brought down the house and encores were demanded.

Three children soloists were exceptionally good. Miss Robena Keller sang a beautiful solo, "Evening," in a most pleasing manner, and for an encore she sang "A Valentine." Little Miss Hazel Bump sang the solo part for "Come Buy My Flowers." She has a very sweet voice and she sings with much ease. She bowed her responses to the encores which she received. Clark Hedges also did himself proud in the singing of the solo part of "The Sailor," and he was obliged to respond to an encore.

The children were assisted by Miss Mary Wilcox and Ross Bump. Miss Wilcox sang three selections, and was the recipient of a bouquet of white roses and an enthusiastic applause, which she well deserved. She responded to an encore.

Ross Bump was on the program for two con songs, but the number was doubled before the audience was satisfied.

"Meditation," rendered by Mrs. F. F. Lewis, organ; Mrs. J. H. Jones, piano; S. H. Hayner, viola, and F. F. Lewis, cello, was the only instrumental number on the program, but proved a great treat.

Mrs. Lewis presided at the organ, and Mrs. Jones, Mrs. W. S. Jeffris, Miss Nina Sloat and Miss Laura Bump played the piano accompaniments.

Fifteen young people in evening dress were the very obliging ushers. They were Mr. and Mrs. Frank Reynolds, Misses Agnes Shumway, Helen Nash, Helen Prichard, Jeanette Ford, Katherine Fifield, Mae Valentine, and Messrs. Fred Jeffris, Mark McNamara, Ed. Norcross, Charles Sutherland, Charles Tallman, Albert Hoffmaster and Samuel Echlin.

Straw Horseshoes.

In Japan most of the horses are shod with straw. Even the clumsiest of cart horses wear straw shoes, which, in their cases, are tied around the ankle with straw rope, and are made of the ordinary rice straw, braided so as to form a sole for the foot about half an inch thick. These soles cost about one cent a pair.

Forty Couples Enjoyed a Good Time at Odd Fellows' Hall.

At East Side Odd Fellows' hall last evening was given a most enjoyable dancing party by members of the Rusk Lyceum society.

Forty couples were on hand to have a good time and that they succeeded in having it was quite evident.

Cool breezes made the night an ideal one for dancing and at midnight the festivities came to an end.

The Imperial orchestra of four pieces furnished excellent two step and waltz music and were obliged to frequently respond to encores.

The Rusk Lyceum parties are most pleasant affairs.

FACTS ARE STUBBORN

If Janesville People Are Not Convinced By Local Testimony They Differ From Other People.

Our readers must have noticed, in the past two years how "cures have multiplied in the newspapers like mushrooms in a meadow, and following the plethora of "cures" the general public have turned remarkably skeptical. Facts are demanded, but it has also become essential to know who supplies them, where are they from, in fine, whom have you cured. Doubting Thomas would not accept a par incredible cures on the other side of the continent. He wants it at home. "Give us some neighbor, then I will believe," is what he asks for. Well Doan's Kidney Pills do this. Call it what you like, at home, local or neighbors testimony, you can always ascertain the truth of it without leaving Janesville. Here is a case.

Mr. John Stetson, of Hotel Myers, day clerk, says: "I was thoroughly examined by a physician some time ago who pronounced my trouble kidney complaint. If the severe pain across the small of the back is any indication of the said complaint, I guess I had it. For two years I suffered with attacks which when not violent there existed a dull, grinding ache, which robbed me of considerable energy. I used in addition to doctor's prescriptions, several preparations said to be sure cures for kidney complaint, but up until I procured Doan's Kidney Pills at the People's Drug Co.'s drug store, I received little if any permanent relief. I took a thorough course of treatment prescribed by Doan's Kidney Pills and it cured me. Up to date, and it is some months since, I have not noticed any recurrence of my old trouble."

Doan's Kidney Pills are sold by all dealers. Price, 50 cts. Sent by mail on receipt of price. Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S. Remember the name, Doan's, and take no other.

Chicago Live Stock Report.

Chicago, May 31.—Heavy receipts of cattle and hogs were at hand today, and there was more weakness than strength in each branch, though some early sales of hogs were at stronger prices and some of the choice cattle sold fully steady. The bulk of the cattle sold more slowly than earlier this week, however, and late hog trade was flat and weak at a big 5c decline, with many late arrivals not wanted at that. Sheep sold more readily than either of the two preceding days this week, with all change in values toward a higher level, general trade in that line having more satisfactory tone than any time this week. Receipts were estimated at 17,500 cattle, 37,000 hogs and 14,000 sheep.

NO BIDS WITHIN THE LIMIT.

Armor Plate Concerns Say Congress Price Is Too Low.

Washington, June 1.—Bids were to have been opened by the navy department Wednesday for armor for battleships, monitors and armored cruisers now authorized by law, but no bids were received within the price fixed by congress.

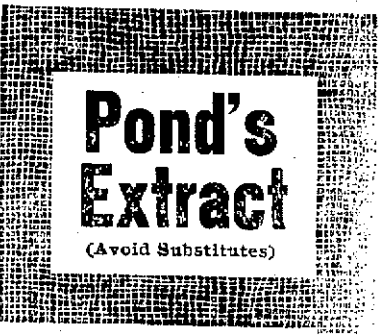

The Carnegie Steel company and the Bethlehem Iron company submitted statements that they were unable to furnish armor of the character required at the price fixed by congress. Burnstone Brothers of San Francisco made a blanket offer to furnish all the armor required for \$450 per ton, which, however, is above the limit fixed by congress. This limit was \$400 for the seven ships authorized last year and \$300 per ton for the ships authorized this year.

Pope's London Visit.

The Pope is the only one in the long line of sovereign pontiffs who has strolled down Piccadilly. He was in London for a month in the forties, having a holiday at the close of his term of office as Papal Nuncio to the King of the Belgians. He had apartments in what is described to Cardinal Manning as a "side street off Piccadilly," but its name he had completely forgotten, and all Cardinal Manning's efforts to identify it or the house in which he lodged were fruitless. He was, of course, then simply Monsignor Perelli, and his name is only briefly mentioned in the papers of the period.

WINE OF CARDUI

A SURE MEDICINE.

HANDSON, Va., Dec. 31.
I have been suffering from female weakness for four years, and have taken many medicines, but Wine of Cardui and Black-Draught have done more for me than anything else.

MRS. CAROLINE EVANS.

It is a mistake to take any and every kind of medicine when you are sick. There is danger in it. Most of the so-called cures for "female weakness" do nothing more than deaden the pain temporarily, and when the effect wears away the patient is weaker and sicker than before. It is never wise to take chances. You have only one life, and that is dear and precious. If you have any pain, ache, disorder or weakness in the female organs, nothing will help you like Wine of Cardui. It helps do away with morning sickness during the early stages of pregnancy, and modifies the pains of childbirth; recovery is rapid and future health is assured. The Wine is purely vegetable, being made of herbs whose medicinal properties act directly upon the organs of womanhood. It is a long-tried remedy, and has many years of success behind it. It is sure. Why take a chance medicine when you can get a sure medicine?

COMING TO MR. HENDERSON.

General Henderson is gaining strength every day and it is now more likely than ever that he will be the choice of the house for speaker. Wisconsin started his boom, and it has been growing with each hour. Even in the east he has friends and supporters, and in view of the fact that Massachusetts will soon meet to decide which way to go, the following from Congressman McCall is interesting:

"General Henderson resides at the greatest distance from Massachusetts, and yet he is the last man against whom the people of my state would sanction the drawing of a sectional line. His career is broadly national whether we regard his splendid services in the civil war, in which he was crippled for life, or his fine record for 16 years in the house of representatives.

"I think it can be fairly said that the national bankruptcy law would not have been upon the statute books if it had not been for his efforts. He has been outspoken for civil service reform when it showed little signs of popularity in the house. He is also sound upon the money question. I believe him to be an excellent representative of those policies in which the people of Massachusetts strongly believe.

"I do not mean to say that I am committed to the support of General Henderson, but I will say that when such a splendid delegation as that which Iowa now has in congress—a state which never had a political boss—presents him as a candidate, I shall not vote against him because he lives beyond the Mississippi, while some other candidate lives in a state perhaps contiguous to Massachusetts."

ABOUT PURE MILK.

Too much care cannot be exercised in the matter of securing pure and wholesome milk. Dispatches from Chicago say that as the result of a test made at the stock yards by the live stock commissioners and health officers, it was discovered that all of the twenty-five cows examined were suffering from tuberculosis. While there was no outward sign of the disease, yet each animal was in an advanced stage of consumption. From the lungs of one subject a pint of germs was taken, and another had tuberculosis of the liver. Milk from all of those cows had been selling in the Chicago market up to a week ago.

That milk is peculiarly acceptable to the absorption of germs is well known, and the health of the growing children—by whom the major portion of milk is used—demands the providing of every safeguard to insure its purity and healthfulness.

Admiral Schley is still drawing immense crowds on his western trip. He is making some great speeches, and on every occasion has just as strong a grip on good sense as when he closed the Colon sixty miles and put her under water—Fond du Lac Commonwealth.

Let us give honor to whom honor is due. We all must admire Admiral Schley, but if the "Stories of the Captains," written by the commanders of the vessels at Santiago and published in the Century magazine are any authority, the thirteen inch shells of the Oregon—the "yankee devil," as the Spanish named her—sent the Colon onto the beach.

Secretary Gage's administration of the treasury department has been exceptionally efficient. His success is largely due to the fact that he has made a careful study of his work ever since he became the head of the department. He can tell the history and peculiarity of every bill ever issued by the government.

The fact that 5,000,000 women in the United States smoke, is explained by saying that \$499,500 of them live in our new possessions. And the explanation, it may be said, comes in good time, too.

Ernest Terah Hooley will not be prosecuted. This will doubtless be good news to Du Paty du Glam.

In Russian commercial schools the

Now that it is definitely settled that Padarewski is not married, let the world again wag on.

SIAMESE FOOTBALL.

The Ball Is Generally Struck with the Knee.

The Siamese youth have only one game worth considering, and that one is indigenous—or native to Burma—the question of parentage being a much-mooted one, says Harper's Weekly. At all events, the game requires a certain amount of activity, and is very interesting to the onlooker. It is a kind of football—in fact I have heard it called Burmese football—played with a ball about four inches in diameter, made of braided rotan, entirely hollow, very strong and resilient. The number of contestants is not arbitrarily fixed, but play is sharpest when there are enough to form a circle about ten feet in diameter. The larger the circle after it has passed the desirable diameter the slower the play. The game is to keep the ball tossing into the air without breaking the circle. As a man fails at his opportunity he drops out, and when there remain but four or six, the work is sharp and very pretty. The ball is struck generally with the knee, but also with the foot, from in front, behind and at the side. Some become remarkably clever. I have seen a player permit the ball to drop directly behind his back, and yet, without turning, return it clear over his head, and straight into the middle of the circle, by a well-placed backward kick of his heel.

WORMS AND CYCLONES.

Tells of the Wharf Owners in Southern Seaboard Cities.

This is the time the small white torredo worm does business down south in the wharf piles of cypress wood. The first warm day of spring the wharf owner looking down into the green water lapping the edge of his pier sees a swarm of floating insects about an inch long and about a yard below the surface. The next day he looks for them and they are gone, every one gone into his good piles. They will never be seen again this season; they will come the next, and by the third year the wharf owner will need to put in a new lot of piling. The torredo worms eat away steadily until they cut the hard logs fairly through just below the high water mark. In years past it was the custom in some of the seacoast cities of the south to build wharves of a cribbage of logs, resting on the harbor bottom and packed in with concrete. But the almost yearly cyclones picked up these contrivances and set them down bodily a quarter of a mile uptown in some quiet street. With seventy feet of mud for a bottom and heavily loaded wharves for the torredo worm working persistently "in to the morning," "the Lord knows," as a Charleston wharf owner said the other day, "what holds us up."—New York Commercial Advertiser.

SIXTEEN HUNDRED LEFT JANESVILLE

ATTENDED WOODMEN PICNIC AT BELOIT

Special Trains Left Over the Northwestern Line Each Filled With People.—Janesville Made Good Showing in Parade—Fully Twenty-five Thousand Were Present.

Sixteen hundred people from Janesville visited Beloit today to attend the annual picnic of the Modern Woodmen of America.

Agent Gleason, of the Chicago & Northwestern railroad, and Clerk Ashcraft, of the local camp of Modern Woodmen, claim to have sold close to 1,400 tickets prior to the departure of the last special to leave here, which left at 9:30 over the Northwestern.

The local camp of Modern Woodmen several days ago selected the Northwestern road as their official route and the greater portion of those from here went via the C. & N. W.

On the regular 7 o'clock trains on both the Northwestern and Milwaukee railroads many took their departure.

At 8 o'clock a special of ten coaches left over the Northwestern and every available space of room was occupied.

Fully 300 were left behind, including the Imperial band and members of Florence Camp No. 366.

At 9:30 o'clock the second special to leave Janesville pulled out over the Northwestern road, consisting of ten coaches. This train was only partly filled.

On the Milwaukee road Ticket Agent Samuels says that two hundred and fifty tickets were sold for the morning trains.

During the afternoon many left on both roads, while those who went overland by bicycle and in carriages, would bring the number to the sixteen-hundred mark.

During the entire morning special trains of eight to fourteen coaches, pulled into the city from the north and west on both roads.

Regular incoming passenger trains were delayed, and but few pulled out on time during the morning.

At Beloit the business streets was a surging sea of humanity, and to move about was almost an impossibility.

It is estimated that in the neighborhood of 2,500 people were in attendance. It was well towards the noon hour before the monster parade got under way.

Band after band and camp after camp passed the reviewing stand and the parade as a whole was one of the longest in the history of Woodmen's picnics.

Janesville made an excellent showing, having fully one hundred and fifty men in the parade as well as thirteen Foresters in uniform.

Headed by the Imperial band of twenty-six pieces, lead by Leo Rooney as drum-major, the members of Florence Camp, No. 366, were loudly and frequently cheered as they marched.

A goat was taken through the parade by the local camp and attracted much attention. On its back was placed a white banner on which was printed the following:

FLORENCE CAMP

M. W. A., No. 366.
Janesville, Wis.

Over the streets were erected several beautiful arches, handsomely decorated. Madison being the banner camp of the state, was given the place at the head of the procession.

At the judges' stand the Imperial band, of this city, made an excellent showing in competing for the prize.

They played, "The Maine Festival March" and were loudly applauded.

An attractive program had been prepared for the entertainment of visitors. There was speaking and music, free street aerobics and aerial performances, balloon ascension, bicycle races and base ball, prize drills by Foresters, and prize band contests. The program at the city park included an invocation by Head Chaplain H. H. Troy of Platteville, Wis.; an oration, "The Occasion," by J. B. Dow, Beloit; speech of welcome by Mayor Smith, and response by the Hon. Charles E. Whelan of Madison; address, "The Local Woodmen," by Prof. E. G. Smith, of Beloit college, and an address by Head Consul W. A. Northcott, lieutenant governor of Illinois.

Many of those who went from here returned on the afternoon trains.

HYGIENE OF GREENS.—Were it not for the tiresomeness of statistics one could fill a column with the facts of what every one should know about the hygiene of greens—how full of albuminoids, of minerals, of carbohydrates, and the rest of it—as they are. There is nothing so conducive to health as the free use of greens at this time of the year. Spinach, a cheap vegetable and which the French call the "broom" of the stomach, contains a large percentage of such minerals as the human system needs to replace the daily waste. Consistent use in preparing spinach. Each leaf and sprig should be closely scanned for slugs, bugs and other unpleasant occupants of vegetation. Make ready a large saucepan of boiling water, well salted, and throw in the leaves, letting them boil uncovered until wilted, no longer. Drain thoroughly and chop fine or mash through a colander.

Born in Missouri.

The tale was told to the present writer by a native of Missouri, of the six men who, in the course of a smoking car conversation upon a railroad train, fell to questioning one another as to the states of their nativity. "I was born in Ohio," boasted one. "And I in Illinois." "And I in Kentucky." "And I in Georgia." "And I in Maine." The sixth man was somewhat deliberate, but as they looked toward him he put his hand behind him, and grasping the handle of a gun which stuck out of his rear pocket, said: "Well, I was born in Missouri. Now, d—n ye, don't one of ye laugh!"

HERBERT GARVIN KILLED LAST NIGHT

NORTH BOUND VESTIBULE COLLIDES WITH ENGINE.

Accident Took Place at Desplaines, Ill. And Three Men Were Injured—Due to Presence of Locomotive On Wrong Track—Passengers Were All Badly Shaken Up.

Herbert Garvin, a local colored youth, residing on Wall street, was killed in a railroad wreck at Desplaines, Ill., last evening at 7:05 o'clock.

Garvin's body was caught between two "blind baggage" coaches on the vestibule where he was stealing a ride with a companion who escaped. Three men were injured as follows:

DAVIS, WILLARD H., colored, a waiter on the bullet car of the passenger train; severely cut about the head by falling glass; taken to his home at 2725 Dearborn street, Chicago.

SAGE, JOSEPH, from an passenger train; leg broken and internal injuries; taken to his home in Chicago.

ARNOLD, F., fireman on the light engine; leg broken and internal injuries; taken to his home in Norwood Park.

Cause of the Accident

The light engine, which carries a suburban train from Chicago to Desplaines, had arrived at its destination, uncoupled from the cars and was being run to the roundhouse, when the St. Paul flyer ran into it. Fireman Arnold was in the engine alone and had charge of the throttle. He was going east on the west bound track and to this the collision was due.

The force of the collision wrecked the platforms of the two "blind baggage" cars on the train. On the platforms were Garvin and his companion. Several saw Garvin's companion jump in time to escape injury. Garvin, who was killed, was caught between the platforms, and his chest and head were crushed.

Search for Body of Negro.

Railroad employees and residents of Desplaines immediately set to work at the wreck, and after caring for the injured began searching for the body of the negro.

It was with difficulty that the wrecked platforms were torn from the coaches. Between them Garvin's body was discovered. It was taken to an undertaking establishment in Desplaines, where it was prepared for burial.

All of the coaches on the limited train, with the exception of the "blind baggage" cars, were taken to Chicago with the passengers, who then boarded the 10:15 train for St. Paul.

Both Engines Are Wrecked.

The pilot of the limited engine tore the suburban engine's tender into two parts and, forging ahead, completely wrecked the locomotive. The limited engine was also badly damaged, probably beyond repair. Fireman Sage, of the limited engine was hurled from his post with terrific force, and he fell upon his left leg, breaking it. Engineer Harry Ebbitts, of this city, escaped injury, as also did Conductor C. M. Marriotte and brakeman H. J. McCammond and Oscar Planstiel.

Garvin's remains were identified by a letter of recommendation found upon his person and signed by Chief of Police John W. Hogan.

NEWS FROM THE COUNTY

Indian Ford

Indian Ford, June 1.—A gun in the hands of a careless fisherman came near causing a fatal accident here Tuesday, when Mrs. Bradley and the young man who works for them were returning from Edgerton. Just as they drove onto the bridge the gun was discharged and the horse became frightened and began to kick. The driver deserves much praise for the manner in which he handled the horse. Through his coolness and bravery no one was injured and the buggy might have fared worse, only one shaft being broken. The Lodge supper which was postponed from Thursday night to Saturday was much enjoyed, although not very largely attended. While playing at Herman Fry's last Sunday, one of Pete Foxe's children fell from a cart and broke its arm. Two of Mrs. Meier's brothers, of Lake Mills, visited her at her home here Saturday and Sunday. Jim Conroy and sons, James and John, of Shoppers, have been visiting at Henry Coe's. Joe Riley and son, of Minnesota, were at J. Scarcliff's last week. Fay Price accompanied John Bell and Sarah and Louie Barrenger, of Edgerton, on a trip to Magnolia, Monday. Miss Mable Gress spent Sunday in the Ford, the guest of the Misses Leitz and Alverson. Several from this place attended Memorial exercises in Edgerton, Tuesday.

Johnstown Center.

Johnstown Center, June 1.—Little Clarence Wilson had the misfortune to fall and break his arm last Saturday. The heavy fall of rain here lately has given crops a good chance to grow. Weeds are also availing themselves of the opportunity. Mrs. D. McCulluk returned to her home in Milton on Sunday last. Mr. and Mrs. Thomas McCarty have a nine and one-half pound son. The Johnstown Center school celebrated Decoration day under the supervision of the teacher, Miss Ida McArthur. Mrs. James Kingsley and Mrs. Charles Stoller were in Janesville, Tuesday. Mrs. Lena McGowan, who resides near Janesville, visited relatives here last week. The absence of potato bugs is remarkable but we are happy to say it is a good sign. Del. Waters has been on the sick list, but is now able to be at work again. James Waters had his sheep sheared this week.

PLEA TO GENEROSITY OF LOCAL CITIZENS

CITY MISSIONARY MARY KIMBALL MUST RAISE \$700.

Contractors Who Recently Built Chapel Serves a Lien—Entire Property May Be Sold to Satisfy Judgment—An Appeal to the Citizens of the Bower City.

City Missionary Mary Kimball, of South Jackson street, is experiencing much difficulty in her good work, and judging from her pitiable story as related, to a Gazette representative this morning, is entitled to something more substantial than sympathy from the citizens of the Bower City, whom this lady urgently requests to come to her rescue.

Several months ago, Miss Kimball built a chapel on her South Jackson street property, on which there was an indebtedness of \$700 after its completion.

Miss Kimball now states that the contractors at the time assured her she would be allowed plenty of time in liquidating the indebtedness, but for some unknown reason had served a lien on the structure on the 18th day of May, and that if the judgment is not satisfied within twenty days from the date of service, the property would be advertised and sold at sheriff's sale.

In view of the fact that the chapel is built on Miss Kimball's residence property, there is danger that that, too, may be included in the sale, at least that is the opinion of one of the local attorneys, whom Miss Kimball has consulted.

Miss Kimball makes an urgent appeal to the citizens of this city to come to the rescue by extending financial assistance in an hour of great need. She has worked unceasingly in the interests of fallen and suffering humanity, and without question is worthy of compliance to the request she makes.

THE STORMY PETREL.

How the Little Bird Hatches Its Eggs.

The stormy petrels nest just above the Atlantic surge on the islets near Iona and the Hebrides. There above the rock on certain islands in a black, buttery soil, in which they burrow like little winged mice, and on a nest of sea pink lay one white egg. As this desertion of the regions of light and air by birds is something outside the natural course of their lives, it leads to various odd and unexpected social complications and domestic problems. Among the latter is a serious one, the difficulty of keeping the underground house clean or moderately cool. It is usually very hot. Sand-martins, for instance, do not attempt to ventilate their burrows as rabbits and rats do; neither do Kingfishers nor the stormy petrels when they make their own burrows, and do not creep into chinks between piles of stones or rocks. Evidence of the high temperature of this "hot chamber," where the young petrels are hatched, is seen in a very pretty popular belief in the Outer Hebrides. The people say that they hatch their eggs, not by sitting on them, but by sitting near them, at a distance of six inches between them and the opening of the burrow. Then the petrels turn their heads toward the eggs and "coo" at them day and night, and so "hatch" them with their song. This, which sounds like a fable of the East Atlantic islands, has really a basis in fact. Davenport Graham says that the account is "very correct; though I never heard the cooing noise by day, I often did in the evening. It is rather a purring noise. When its nest is opened up, the bird is usually found cowering a few inches away from its egg." This hot and stuffy atmosphere may aid the hatching of eggs; but there is no doubt that it brings into being other and very undesirable forms of life. The nests and burrows of sand-martins are full of most unpleasant insects, and those of the Kingfisher are nearly as bad.

How McKinley is Paid.

The president of the United States receives his salary in a warrant upon the treasurer at the beginning of every month and Col. Crook, one of the clerks of the white house, obtains his signature and receipts and deposits the money to his credit in one of the Washington banks. The warrant is signed by the chief of the warrant division and approved by the secretary of the treasury or one of his assistants.

Expenses of Universities.

President Angell of the University of Michigan recently made an interesting statement concerning the size and current expenses of large universities. Michigan with 3,000 students, costs \$420,000 a year; Yale, 2,500 students, \$300,000; Columbia, 2,600 students, \$300,000, and a debt of \$300,000; Harvard, 3,900 students, \$1,200,000.

Don't Lock your Money up in a Poor Refrigerator

Buy the Best. Get an

"Illinois" Taint Proof Refrigerator.

Any refrigerator will perhaps do for a short time, but they are not an every season purchase, and the poor refrigerator does not improve with age. That damp, sour, repugnant smell, comes to most all refrigerators without the proper insulation and circulation.

ILLINOIS AUTOMATIC REFRIGERATORS

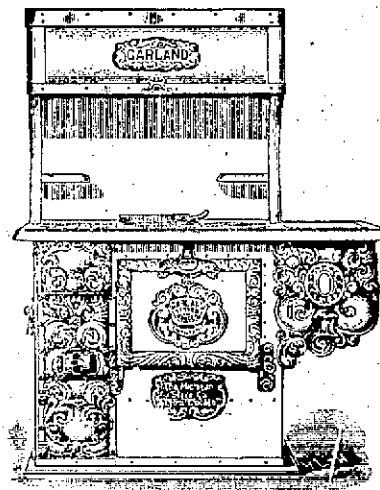

Are not only perfect in circulation, but are also much handier both for the placing of ice in the box and in caring for provisions. According to nature's laws cold air descends and warm air ascends. Illinois Refrigerators are made to aid these conditions; the two air currents do not meet opposing forces in either the ice or provision chamber.

The Only Water Cooler
